#### **Basic Information:**

Patterson District Ambulance (PDA), a division of Del Puerto Health Care District (District), provides Emergency Medical Services (EMS) and transportation to western Stanislaus County, the City of Patterson, surrounding communities, and occasionally into adjoining counties. The daily call volume can vary significantly, but typically consists of four to six dispatches in a 24-hour shift. PDA operates two 24-hour Advance Life Support (ALS) ambulances and participates in community events and activities.

#### **Basic Job Responsibilities:**

PDA Paramedics regularly respond to medical emergencies, follow Mountain Valley Emergency Medical Services Agency (MVEMSA) protocols and algorithms in the care and treatment of sick and/or injured patients, transport to acute care hospitals or other appropriate medical facilities, and use electronic patient care records (e-PCRs) to accurately and thoroughly document prehospital care. PDA Paramedics are certified by the State of California and accredited in Stanislaus County. Paramedics must maintain all appropriate certifications and credentials required to perform all aspects of the Paramedic scope of practice and safely drive an ambulance. There are ongoing continuing education requirements for Paramedic personnel to maintain their credentials.

EMS work is a 24-hour, 365-day occupation. Shifts are typically 12 or 24 hours—08:00 to 08:00 or a 12-hour day or night shift. Alternate shift times may be necessary based on the overall staffing needs of the District. PDA requires that individuals are scheduled on nights, weekends, and holidays. It is possible, even likely, that persons working in EMS will occasionally miss family events including, but not limited to, birthdays, weddings, graduations, and holidays. There are minimum shift requirements for all EMS positions at PDA.

**Additional Responsibilities:**

The Paramedic shares station responsibilities for the cleaning, inventory checkout, and restocking of the ambulances, routine station and vehicle maintenance, and other related duties and tasks as assigned.

**Compensation:**

- \$16.43 to \$22.24 per hour part-time compensation: depending on experience

**Required Qualifications:**

- Currently certified as an Emergency Medical Technician in the State of California
- Currently accredited as an EMT in Stanislaus County
- Current valid California driver's license
- Current valid California Ambulance Driver Certificate
- One year as a 911 EMT preferred, but not required
- Health Care Provider CRP

**Benefits:**

Eligible employees receive benefits that include Medical, Dental, and Vision Insurance, Paid Time Off, Extended Sick Time, Life Insurance, and Retirement with 4% Company contribution and 50% Company match up to 6%.

**All offers of employment are contingent upon passing a pre-employment background screening and a drug and alcohol test.**

**Del Puerto Health Care District/Patterson District Ambulance is an Equal Opportunity Employer.**
